**Attitude**

# Attitude . . . Is Everything

Having a safe attitude is more than just following the rules. It's that extra something that means you care about safety. You show you keep safety in mind when you . . .

**Focus** on the job you're doing even when you'd rather be doing something else.

**Take time** to do the job right, even if it means getting out extra safety equipment and going over procedures.

**Take responsibility** for safety, even when it's "not my job."

**Do the right thing**, even when others want you to take shortcuts or fool around.

**Know the risks** of unsafe tasks, and avoid them whenever you can, even when it means taking more time to get the job done safely.

As an employee of this Pizza Hut, we are counting on you to do your part in making our commitment to safety one that we will live up to daily. The results of this program will benefit all of us.
